[Special Correspondence of The World.] BALTIMORE & OHIO RAILRO nd BALTIMORE, JUNE 6. This city, to-day and during last week, experienced a large influx of well-to-do politicians and office-holders, who are here to attend to the many little arrangements which naturally precede a nominating Con-vention, and to be on hand at the organization to-morrow morning. Of-course it is generally surmised and acknowledged that the nomination of Lincoln here is a fact already fixed by much too explicit arrange-ments to hang at all doubtful in the balance of events. But other and important though minor matters must come up for

It is not a MINERAL WATER. It is from experience that CONSTITUTION WATER has emenate, and we now say let no man doubt, when a single stile has been known to cure diseases which the est medical talent in the dountry failed to relieve. A remedy possessing the virtues of Constitution rater cannot be classed under "quack" proparaons, as it is now used by the most scientific practioners in the city. It is only second-class physical that cry down popular remedies, while the betar skilled make use of every means to accomplish our; and the success of the physician increases this knowledge of different remedies enables him produce a cure, while others fail in the attempt.—cience is satisfied with the truth.

Give Constitution Water a fair trinl—we mean you ho are under some specials's care from year to sar, and we particularly allude to ladies who are instantly resorting to LOCAL TREATMENT, and all rits of local applications for diseases, with as much nance of success as there would be from local applications to the throat for diseases of the brain.

We have always been-careful to use language in ur circular that could not shock the most delicate ganization, but we receive many communications om persons for whom Constitution Water is adapta, and of whose disease no mention has been made, at we have come to the conclusion that if the remay is capable of producing a cure, no matter what he disease may be, it should be made known. The redictine is put up for the public and there should so no exceptions.

Is a disease of the stomach and liver, acting through the kidneys, and is without doubt, the most obstinate disease, except Consumption, that affects the human constitution. We have no space for discussing causes, but will state that the effect of the disease is the conversion of the starchy principle (or vegetable portion of the food) into sugar, which stimulates the kidneys to an excessive secretion of water. Many persons suffer from this disease who are ignorant of it; that is, they pass large quantities during the day, and are obliged to get up from one to fifteen or twenty times during the night. No notice is taken of it until their attention is called to the large discharge of water, and often when it is so far advanced as to be beyond the control of ordinary remedies. Another symptom is the great thirst, which, when the disease is fully established, is intelerable—the patient drinks constantly without being satisfied; also dryness of the mouth, cracking of the lips, a sweet breath, in the more advances cases, and finally loss of appetite, emeciation, and the patient gradually sinks from exhaustion.

Constitution Waters is, without doubt, the only known remedy for disabetes, and we have as much confidence that it is a specific as we have that opium will produce sleep, and truthfully say that it has cured every case in which it has been used.

This is our reply: In health, the body, like a well balanced scale, is in a state of Equilibrium. But when, from any cause, down goes one side of the scales, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

SCROFULA lurks multitudes of men. either produces or i produced by an en-feebled, viriated stars of the blood, where i abusts the vital forces in their tungsal vigorous action, and leaves the system to fall into disorder and decay. The scrofulous ontamination is variously caused by mercurial disease, low living, disordered digestion from

habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin t is hereditary in the constitution, descending from parents to children unto the third and fourth generation;" indeed, it seems to be the od of Him who says, "I will visit the iniquiies of the fathers upon their children." The incording to the organs it attacks. In the ungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which apparate and become ulcerous sores; in the aromach and become alcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. parification and invigoration of the blood. Purify the blood, and these dangerous distermers leave you and these dangerous distempers leave you. With feeble, foal, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does com-bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dressansia or Indigestion, Symbilis and Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief Those cases are purposely taken from all sections of the country, in order that every reade may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its care. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Surseparillo in alterative power. By ts aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital func-

ions, and thus expels the distempers which lurk within the system or burst out on any We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. It virtues are been proven by abundant trial, and there remains no question of its surpassing excellence or the cure of the afflicting diseases it is it ended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ver been available to them.
